NOTE:	"Points" co	lumn is the points value computed	t based on placing			
INOIL.						
	The noints	value is computed using standard	noints values: 10 6 4 7 1 0 4	Š		

If the class has a points multiplier defined it is shown in the class name heading and is factored into the points computed.

Points are only computed for placings 1 through 6.
